The Bundian Way

An initiative of the Eden Local Aboriginal Land Council
NSW State Heritage Register – 18 January 2013

Bundian Way – Summit of Mount Kosciuszko to Fisheries Beach. The best preserved of the ancient east-west Aboriginal tracks of southeastern Australia.
A culturally significant travelling route with deep and enduring links to Aboriginal history and culture, as well as to the history of contact and relations between Aboriginal and non-Aboriginal people.

A unique natural and cultural landscape based experience that can deliver new understandings of culture and history – a shared history route, enriched by past traditions of overland journeys and the stories associated with encounters and interactions between people of differing cultures and the natural environment.
Reconciliation
A unique natural and cultural landscape experience from the mountains to the sea traversing diverse geographies, cultures and land uses.

The Bundian Way has the potential to reveal new understandings of historical events and to support Aboriginal people’s enduring connections to Country.
A shared pathway traditionally open to many different Aboriginal groups – Yuin, Ngarigo, Jaitmathang and Bidaway
